

Country kitchen with modern stress

Mindelheim, Germany - 2017

In our exhibition rooms in Mindelheim, we have furnished a modern country kitchen. The obliquely arranged cooking island with a high-quality work surface made of a refined brown silk natural stone is the focus of the room and attracts every view. The combination of the room made of natural oiled oak and dark gray, modern cassette fronts creates an interesting contrast. The kitchen, equipped with a natural oiled oak workboard, wardrobe fronts with cassette optics in silken English gray from "Farrow and Ball", a showcase with filigree sliding doors and nostalgic electrical appliances from the Italian manufacturer Smeg. A silver-plated console, a 2-leaf refrigerator in silver and massive, natural oak trunk stools round off the ambience in the kitchen.
